ATTIQ UR REHMAN CONT. CO.

## CEO Message

It is my privilege and pleasure to state that since more than a decade the incorporation of the Attiq Ur Rehman Contracting Co. (AURCO) in Al-Khobar, with the help of Almighty God, it was an entirely fruitful period evidently governed by a clear philosophy of work and close link with the community of Kingdom of Saudi Arabia. The significant projects achieved by AURCO, which emerged from our clear-sighted vision and ambitious goals, have profound impact and support in enhancing the national development and providing the appropriate environment for the establishment of many urban and industrial communities in the Kingdom. With the company's growth, development, and expansion to every corner of the kingdom, AURCO contributed to Saudi Market with huge fleet of machinery and manpower. We are well-known and leading supporters for new Industrial Expansion by rendering initial setup facilities with minimum possible time regardless any geographical location in the Kingdom. This remarkable growth, overwhelming success along with the wise leadership, absolute confidence of our customers, partners, the industrial, commercial, and residential market that always expects us to complete our march in the single-aim road, have drawn the clear map of our work. We are proud to be supportive to Saudi Arabia's Vision 2030 by contributing to diversified economy and serving in private sector industrial construction. We excel through comprehensive future viewing, good planning, adoption of development policy for all work systems and mechanisms. Added to that, the provision of adequate and suitable jobs and training of national work force in implementation of continuous training concept and the transfer of expertise to the work team. Through these pillars, we ensure the achievement of optimum use of resources for timely completion of projects with Safety and Quality. We are professional, dedicated, and transparent.

# Company Overview

شركة عتيق الرحمن للمقاولات  
ATTIQ UR REHMAN CONT. CO.

## COMPANY OVERVIEW

Attiq Ur Rehman Contracting Co. (AURCO) is a Civil, Mechanical and Electrical Construction Company. AURCO is one of the leading fast-growing companies operating in Kingdom of Saudi Arabia.

AURCO was established in 2009, as temporary facilities & infrastructural contracting business. Over a short period of one decade, AURCO has successfully diversified into other construction sectors & related support businesses and within a short span of 10 years we are the **main contractor** for the Saudi Arabia's largest Sugar Refinery (Al-Reef Sugar Refinery) in Jizan. AURCO is now considered to be one of Saudi Arabia's fastest growing and trustable construction company. At AURCO, we take pride in offering our clients a strong, customer-focused approach, applying best practices to offer world-class quality that the Kingdom expects from its quality contracting firms. AURCO has attained and sustained leadership in all its major lines of its businesses.

It has its presence almost all over the Kingdom, with a national spread of offices. It has urge to continue to grow its global footprint, with construction facilities in multiple countries.

In response to changing market dynamics, AURCO has gone through a phased process of redefining its organization model to facilitate growth through greater levels of empowerment. The new structure is built around multiple businesses that serve the needs of Construction Business and enable AURCO to be self-sufficient in delivering its services to the esteemed and valued clients.

### AURCO has major business lines in:

- Highly sophisticated world class temporary facilities.
- Site Preparation & Earth Works
- Infrastructure Networks.
- Building Construction.
- Industrial Construction.
- Electrical Network Construction and Installation.
- Steel Erection.
- Mechanical Works.
- Fencing and fire-fighting works
- Equipment rental business.

# Our Capabilities

## OUR CAPABILITIES

Over the last 10 years, AURCO has grown to more than 350 employees, and owns over 300 pieces of construction equipment, and has established 03 regional offices throughout the Kingdom. AURCO strengths, summarized below, demonstrate full-service capability:

- Highly sophisticated world class temporary facilities.
- Infrastructure Networks.
- Site Preparation & Earth work
- Building Construction.
- Industrial Construction.
- Electrical Network Construction and Installation.
- Steel Erection.
- Mechanical Works.
- Fencing and fire-fighting works.
- Equipment rental business.

### Our Strengths

One of AURCO's greatest strengths is derived from the support it receives from the related companies within AURCO, resources that can be relied upon include:

- Human Resource from our strong market alliances.
- Construction Equipment (AURCO rental division)
- Market trust that enables us to purchase quality construction materials on priority basis.

In addition, AURCO prides itself in self-performing most construction activities to maximize the control of its workforce, and to be in a better position to control costs, maintain schedule commitments, and ensure adherence to our Quality and Safety Programs. To ensure that we have adequate resources, AURCO enjoys the strength of having over 300 pieces of construction equipment and a stable workforce of more than 350.

### Our Vision

AURCO is focused on creating innovative, entrepreneurial and empowered team to achieve constantly values and culture of learning, caring, trust and customer satisfaction. AURCO believes that progress must be achieved in harmony with the environment. A commitment to community welfare and environmental protection are an integral part of the corporate vision.

Our vision is **safe** accomplishment of challenges and task in stipulated time frame without compromise on **quality** to meet the clients' satisfaction.

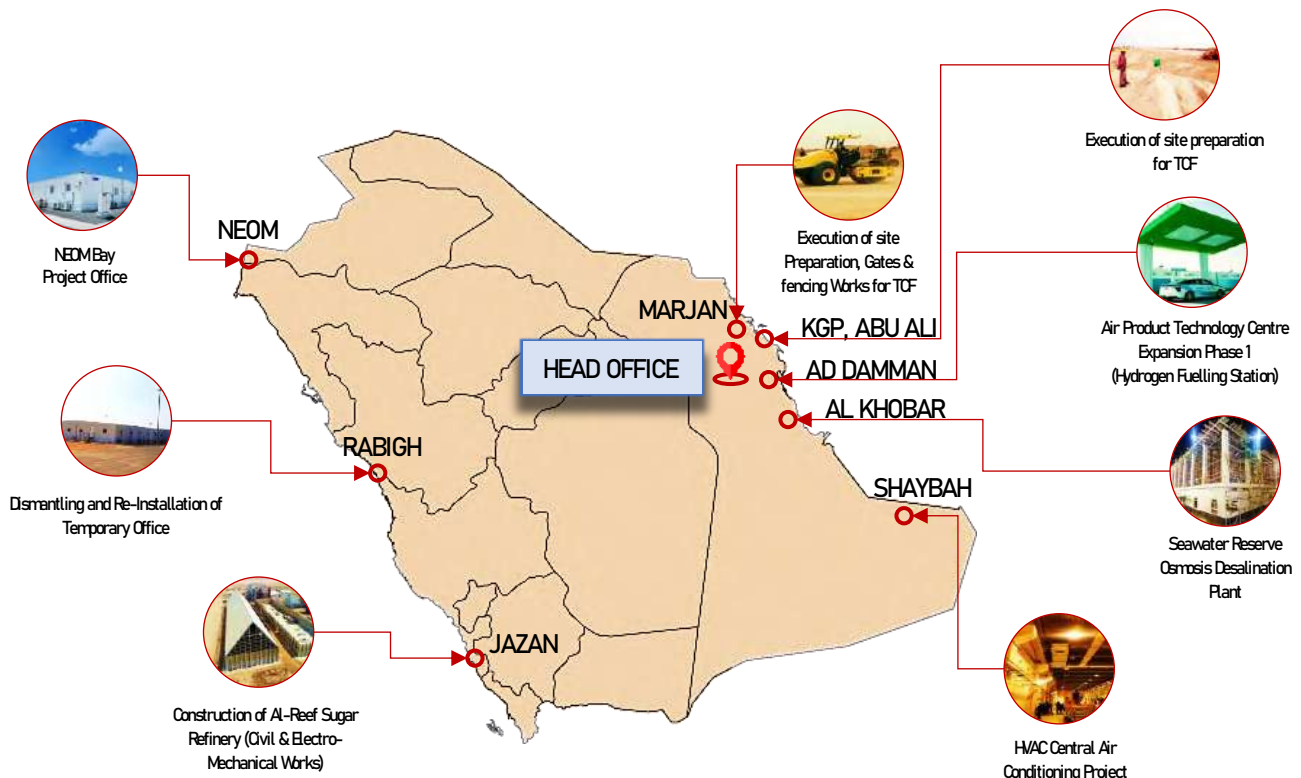

### Our Values:

AURCO believes and earn customer satisfaction and trust by maintaining our strong values of:

- Our Commitment to Prompt Mobilization and Early Completion of Projects.
- Ensuring Customer Confidence through timely communications
- Investing in Technical Expertise
- Ensuring Quality Products & Services through adherence to International Quality Standards, and a Robust Internal Training Program
- Ensuring Environmental, Health & Safety requirements are consistently met, or exceeded through Internal Surveillance.
- Transparency with clients and stakeholders.

### Our Presence:

Through its history of providing excellent service to the major clients in the Kingdom, AURCO has established a presence in almost all regions of the Kingdom. With this Kingdom-wide presence, AURCO is able to mobilize quickly for projects throughout the Kingdom. AURCO therefore specializes in emergency or quick turnaround projects, and we excel on project work in remote areas.

# Robust Mobilization

## ROBUST MOBILIZATION CAPABILITY

Normally, upon receiving the “Notice to Proceed”, mobilization start which includes the following key activities:

- Development of site layout plan
- Site detail survey & establishment of survey control points
- Execution of construction site fence and temporary access roads
- Temporary arrangements for water, electricity & septic tanks

**Attiq Ur Rehman Contracting Co. has robust capability to mobilize on site within 07 days from NTP.**

We have all essential facilities available including furnished porta cabins for offices, meeting halls, consultant and client offices, mosque, site stores, workshop, and all equipment. We are self-sufficient to establish our set-up with amazing short time frame.

We are not only self-sufficient in mobilization rather we are market leaders and have highly trustable reputation among numerous International Companies to whom we have supported for their quick mobilization in Saudi Arabia.

## WE ARE READY!

## Company Safety Policy

AURCO goal is to ensure a safe, healthful workplace for all its employees. Injury and illness losses from incidents are costly and preventable. This company will employ an effective accident and illness prevention program that involves all its employees in the effort to eliminate workplace hazards and to protect the environment on all AUR operations.

AUR will provide a safe and healthy work environment at all times. The AURCO Management strives to achieve goal by focusing on incident prevention, protection of the health and safety of all employees, subcontractor employees, visitors and local communities as a core AUR value.

We will not compromise our values, beliefs or commitments to HSE in order to achieve any other business objectives. We will seek international partnerships aimed at promoting sustainable development and corporate social accountability.

AUR Management is accountable for preventing workplace incidents, injuries and illnesses. Management will provide top-level support of safety program initiatives. Management will consider all employee suggestions for achieving a safer, healthier workplace. Management will also keep informed about workplace safety and health hazards, and it will regularly review the company safety and health program. AURCO will strictly comply with all applicable legal laws, international work practices and procedures designed to protect and promote safety and health as well as protect the environment.

All employees are encouraged to participate in safety and health program activities including the following: reporting hazards, unsafe work practices and accidents immediately to their supervisors or a safety committee representative; wearing required personal protective equipment; and participating in and supporting safety committee activities.

AURCO enforces disciplinary action and a "Zero Tolerance Policy" for HSE violations, such as:

- Smoking at AUR working sites, offices or accommodations except in specially designated areas.
- Mobile phone usage while driving or operating machinery.
- Drug and alcohol use at any AUR location.

AURCO shall achieve world class HSE performance by:

- Developing, distributing, maintaining and monitoring the implementation of the OHSAS 18001 certified HSE Management System
  - Complying with internationally recognized HSE standards
  - Conducting HSE training and developing the skill and competency of all personnel
  - Recruiting qualified HSE Personnel and providing adequate resources for HSE success
  - Maintaining transparent HSE incident reporting and investigation
- Seeking partnerships, sharing experiences and lessons learned with our clients and partners conducting frequent and thorough internal as well as third party audits to monitor the implementation and compliance of the HSE Management System at all AUR locations.

AURCO will continuously strive to improve its HSE Management System and performance through AUR Executive Management setting HSE targets, goals and objectives and communicating these to all AUR personnel.

Attiqu Ur Rehman

Chief Executive Officer

# Quality Management System

شركة عتيق الرحمن للمقاولات  
ATTIQ UR REHMAN CONT. CO.

Attiq Ur Rehman Cont. Co. (AURCO) is a Civil, Mechanical and Electrical Construction Company and is one of the leading fast-growing companies operating in Kingdom of Saudi Arabia.

The scope of Attiq Ur Rehman quality initiative is focused on demonstrating its capability as a Contractor and Developer Engineering, Procurement, Industrial Construction (Civil & Electromechanical), Project Management, General Civil Works, Aramco Specialized Camp and Office Facilitators and services as specified by the client, contractual requirements and regulatory requirements.

At AURCO, we take pride in offering our clients a strong, customer-focused approach, applying best practices to offer world-class quality that the Kingdom expects from its quality contracting firms. AURCO has attained and sustained Quality Management System (QMS) leadership in all its major lines of its businesses through a systematic approach defined elements of ISO 9001:2015 management standard.

The QMS has been designed to prevent uncontrolled change; however, this QMS Manual and its supporting operating procedures should not be considered to be static references. On the basis of information generated by the QMS and objectives, the procedures should evolve, allowing the Company QMS policy to be implemented more effectively and efficiently, and hence continual improvement. Further, if beneficial to the Company, the scope of the system can be enlarged.

When we satisfy Client requirements, we achieve Quality.

- When our product and services meet and satisfy the client's contractual requirements and applicable regulatory standards for our Engineering, Procurement and Construction activities.
- When we continuously meet time, cost, safety and environmental requirements.

Quality Management System DIRECTION:

- Establishing policy and objectives
- Ensuring provision of adequate resources
- Reviewing effectiveness of processes and achievement of objectives
- Facilitating improvement opportunities.

Quality Management is not a separate department which attempts to impose standards on the organization as most people believe. Quality Management System is depicting the systematic manner in which we manage our system and processes to lead and operate the company successfully.

QMS comprises of Quality Manual, Quality System, Quality Plans, Procedures, Inspection & Test Plans, Work Instructions and Method Statements, etc. and is a tool for planning, control and management of our organizational characteristics and their collective implementation in what we believe to be our "System of Best Practices".

Quality does not describe the Management, but is itself the thing which is managed.

In other words “Quality Management System” can be defined as the managing structure, responsibilities, procedures, processes, and management of resources to implement the principle and action lines needed to achieve the quality objectives of the organizations”.

The success of this initiative is in the development (by Attiq Ur Rehman staff) of a defined corporate quality management system, its implementation and demonstration of compliance to internal and external auditors.

An independent accredited certification company is used to assess the compliance to ISO 9001:2015 for Project Management and Engineering, Procurement and Construction activities. The ISO 9001:2015 certificate is used to visibly promote the capabilities of the company with our current & potential clients and suppliers.

The QMS Manual describes the Company Quality Policy, Organization Structure and the policies & objectives against the elements of ISO 9001:2015 management standard. This shall be a controlled document for internal distribution.

The requirement of this manual is aimed at the prevention of management system failures and the maintenance of a system that provides the most effective and efficient means of achieving the QMS objectives, aligned with the business strategy.

#### Quality Policy

*“We the management and employees of Attiq Ur Rehman Cont. Co. are fully committed to providing our customers with the products and services they want. To achieve this, we require everyone to strive constantly to improve the quality of the products and services we supply in a common quality objective.” The Quality Management System is designed to ensure the execution of the services and product quality & standard through the provision of evaluation and verification of process at all stages are thoroughly kept and maintained.*

*It is the policy of the Attiq Ur Rehman Cont. Co. to apply effective quality management systems within its overall business to satisfy all the requirements of its customers.*

*In order to achieve this Attiq Ur Rehman Cont. Co. shall consistently:*

- *Meet the requirements of the contract specification within stated budget and time restraints.*
- *Provide motivated and properly trained personnel necessary to perform all activities in accordance with stated procedures.*
- *Seek to improve the services and products by the Company by continued examination and evaluation of the management systems.*
- *Ensure that all personnel are fully aware of their individual and collective responsibilities in order that the Quality Management System is carried out to the benefit of the Company and its Clients.*
- *Provide competent staff and management with job security in a safe and healthy working management.*

- The most likely cause of projects delays and/or cost overruns
- The major source of quality problems

With these facts in mind, AURCO has invested considerable time, efforts and expenses in organizing and streamlining its material department. It has hired Programmers, Schedulers, and Engineers to design procedures, forms and control systems to effectively manage its material requirements.

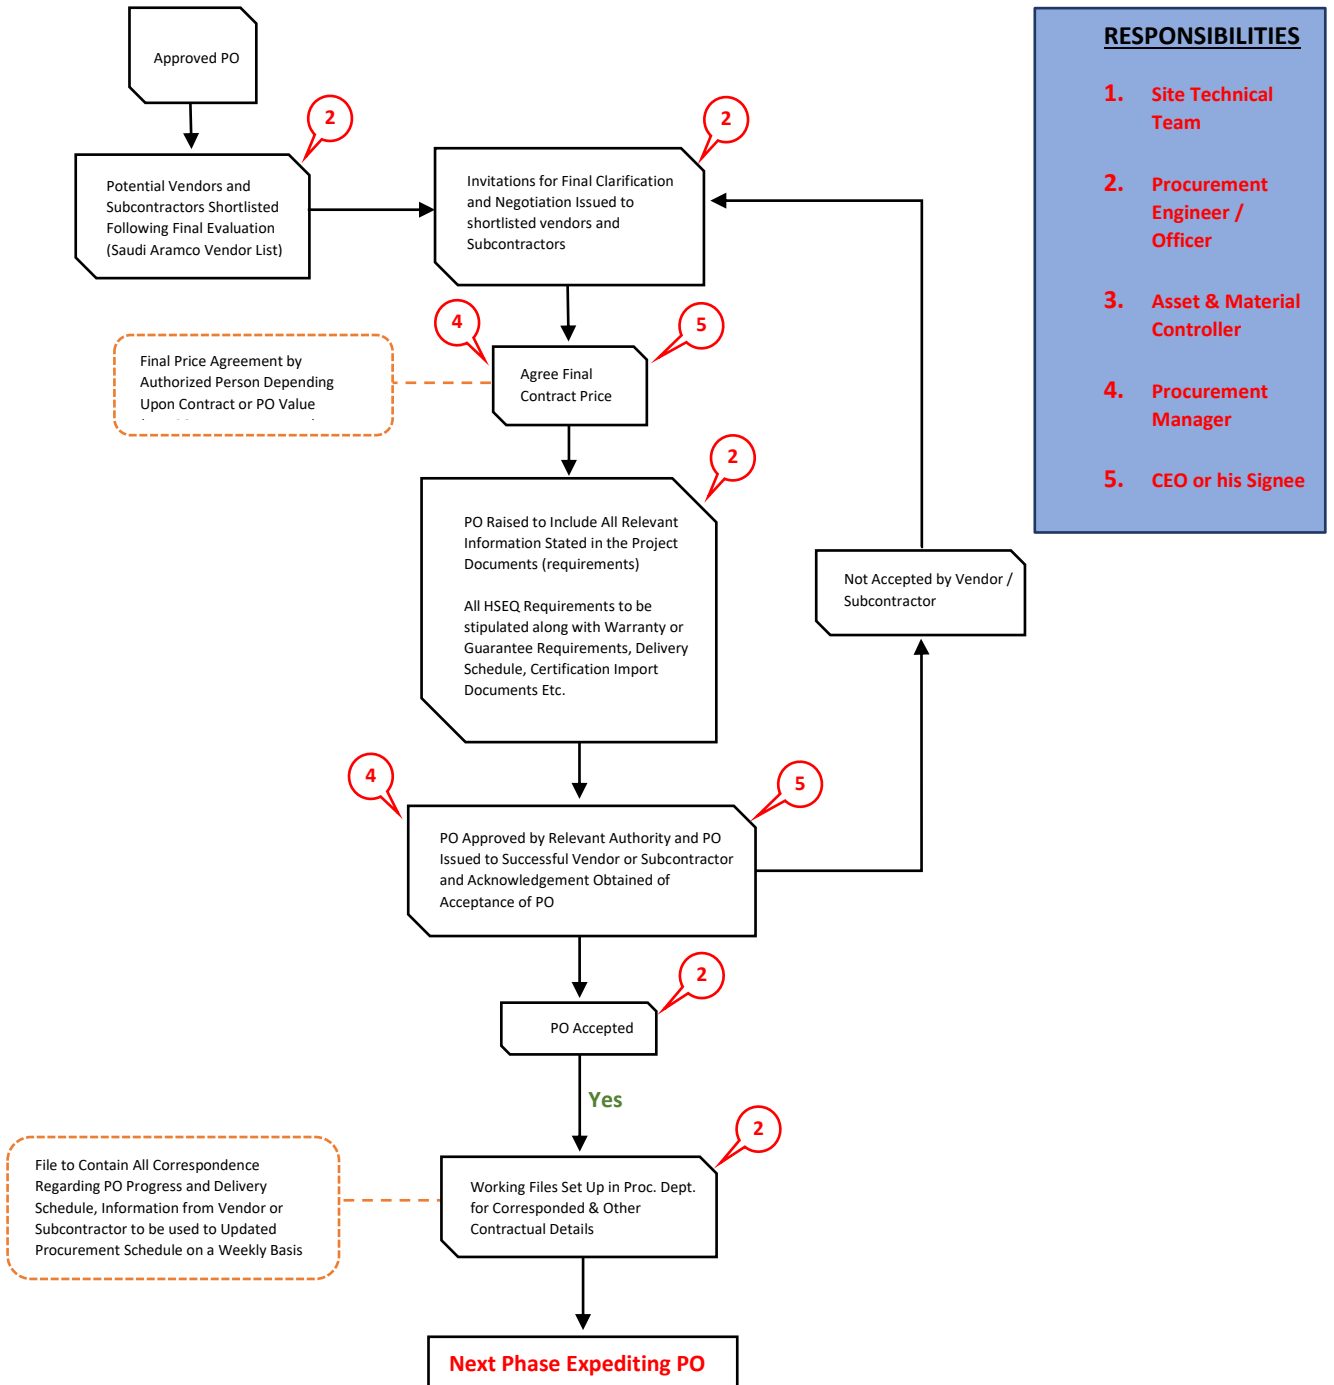

AURCO Management has contacts with most reputed firms / vendors not only in the Kingdom even outside the Kingdom with whom it has been dealing in the past for procurement of various materials and equipment for its projects. This benefits the procurement department in obtaining information, collecting catalogues, product data, shop drawings, specifications etc.

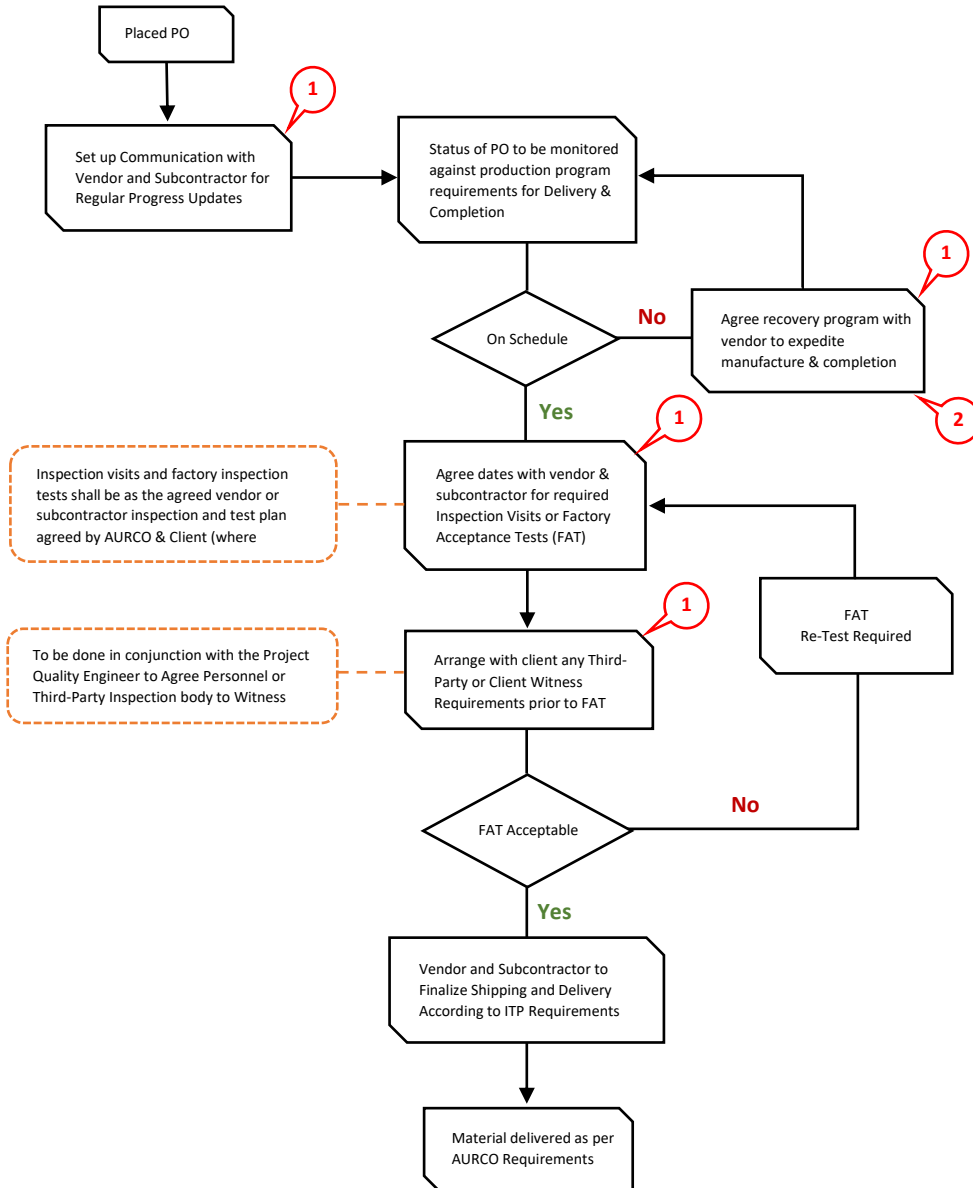

## INVITATION TO TENDER PROCESS

## PURCHASING ACTIVITY

## EXPIDITING PURCHASE ORDERS

### RESPONSIBILITIES

1. Site Technical Team
2. Procurement Engineer / Officer

#### APPRECIATION LETTER

14 Aug 2019

Attiq ur Rehman Contracting Est.  
P.O Box 685, Al Khobar 31952,  
Kingdom of Saudi Arabia

Dear Mr. Muhammad Safdar :

I would like to take this opportunity to thank you for your close cooperation in recently completing the project for **HQC TEMPORARY FACILITIES DEMOLITION** in Safaniyah plant of Saudi Aramco.

I am writing to thank you for the good-quality services provided by your company, the rapid mobilization of Equipment and Manpower to the site, the safety working as per Aramco's procedure, as well as quickly resolve any issues that arise. Should the aforementioned work what your company completed be sufficient to indicate your ability is the efficient and professional services.

We have, and will continue to, recommend your services to other companies and contacts.

Sincerely yours
